**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

After being stuck with extremely expensive broadband (\$130/mo) for years with no alternatives I finally have broadband which is more than 10 times faster and less than half the price. This only an options because of competitive telephone/telecommunications rules that exist. Please ensure those rules stay in effect so we can have a truly competitive market.

In fact having more providers would be ideal. Two or three make price fixing easy, real competition drives innovations. Something that isn't happening in this space since we've reduced to only one-three possible carriers.

I now have fiber to the house which is only available because of competition and the current rules. Do not roll us back to monopolies/duopolies.
